Conventional

Intrinsically Safe Sounder

Product Overview

Product I.S. Conventional Sounder

Part No. 29600-379

Approvals

Product Information

The Conventional Intrinsically Safe (I.S.) Sounder provides an audible warning signal in hazardous areas.

With three alarm stages and a low current consumption the Conventional .I.S. Sounder is ideal for both fire and process control applications.

The sounder needs to be used with a galvanic isolator as specified by the system certificates.

- ATEX certified
- · IECEx certified
- Suitable for Group I mining applications

Technical Data

Maximum sound output at one 100dB(A)

metre

Supply voltage6-28 V dcCurrent (tone dependent)25 mA typicalRatingContinuous

Number of tones

Operating temperature -40°C to +60°C

IP Rating designed to IP65

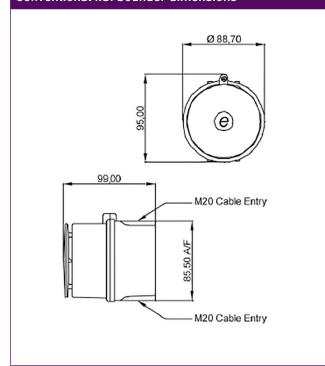

Standards & approvals ATEX, IECEX

Weight 0.35 kg

Cable entries 2

Construction High-impact flame retardant ABS

Conventional I.S. Sounder dimensions

Suitable for the applications that follow:

- Industrial
- · Railway/Marine
- Hazardous areas
- · Public warning
