Apparatus product / model	IMPACT
Type	CONTROLLER

Object of the declaration:

4EVAC is a revolutionary new class of commercial Voice-Alarm Control and Indication Equipment solutions. 4EVAC consists of a comprehensive range of fully approved quality products designed and manufactured in Europe. As facilities and projects expand, so must the Voice-Alarm and life safety systems that protect them. 4EVAC is designed to appeal to both the end user and installer with the latest Voice-Alarm technology packaged in an easy to install single boxed solution. 4EVAC delivers you the ability to adapt to rapidly changing needs and to provide complete control over your Voice-Alarm system

The object of declaration described above is in conformity with relevant Union harmonisation legislation:

2014/30/EU	EMC Directive
2014/35/EU	Low Voltage Directive (LVD)
2015/863	RoHS

Title, Date of standard/specification:
